CONDITIONS OF SALE,

ARENA, BOSTON.

- (1) The Sale will be conducted in the interest of both buyer and seller.
- (2) Stock will be sold in the order catalogued. Each animal will be sold without reserve. No by-bidding will be allowed.
- (3) The management acts solely as agent and does not hold itself responsible for any representation, warranty or guarantee, of any kind, verbal or otherwise. The name of the owner is given with each entry, and he alone is responsible for all statements.
- (4) In case a warranty of any animal is intended, it will be so stated in the catalogue or by the auctioneer at the time of sale. In absence of such special statement, each animal will be sold as it stands.

(5) Descriptions:

The descriptions printed in the catalogue are received from owners, and are given in order that intending purchasers may form a reasonably correct opinion of the animals before seeing them. Animals described as registered are either recorded in the American Trotting Register or have been accepted for that purpose. The word "Standard" implies only that the animal is qualified for (but not necessarily registered in) the Standard Department of the Register. Beyond the fact that the registered blood lines correspond with the Trotting Register and Thorough-Bred Stud Book, and that reasonable precautions have been taken in the statement of unregistered blood lines, or parts of blood lines, no representations are made regarding them and nothing is guaranteed. Descriptions as to height, age, weight, marks, and speed of horses are approximated by owners and these, with all records, trials, matter of current history, and accredited reports are given in the belief that they are correct, but bidders should examine for themselves, bearing in mind that all such matters depend largely upon estimates of memory and may not be exact.

(6) Bidding:

Each animal will be sold to the highest bidder. When a dispute arises between two or more bidders as to which is the highest, the

auctioneer shall decide, and if his decision is doubted, the animal shall be offered again, and unless the party objecting makes a larger bid, the animal will be sold to the party in whose favor the auctioneer originally decided.

(7) Payments:

All payments must be made in cash. A deposit of twenty-five per cent. of the price bid must be made in cash immediately upon the sale of each animal, in default of which the auctioneer may at his option declare the sale void, and the animal may be at once resold, any loss to be borne by the first purchaser. The balance of the purchase money must be paid in cash within twenty-four hours from time of sale. If the balance is not paid, or satisfactorily secured within the time limited as aforesaid, the deposit of twenty-five per cent. will be forfeited as an agreed liquidation of damages, and the sale otherwise held void.

(8) Proof of warranty:

The purchase price of each animal will be retained by the management for four days from date of sale (unless the purchaser waives this protection by accepting a previous delivery), thus giving an opportunity for the verification of any warranty. Upon proof of a false warranty, the sale will be cancelled and money refunded. At the expiration of four days, if the warranty has not been challenged, or if the animal has been delivered, the management will be at liberty to pay the money to the owner. All warranties must be tested and decided before the animal leaves our possession, as after that no claim will be received or considered. In case of a controversy as to any warranty, the management will appoint some disinterested party to examine the animal, and the decision of the person so appointed shall be final and binding upon all parties. The management, however, assumes no personal responsibility for, and no action shall accrue to either party against the management, because of such decision. The person against whom the decision is made must pay the fees for the examination.

(9) Delivery:

No animal will be delivered until it is paid for. No payments will be accepted at the stable. The purchaser must pay his bill (together with all charges for keep) at the office in the Arena Building, Tremont and Chandler Streets. A written order upon the superintendent of the stable will be given for each animal, at the time the bill is paid, and no animal

will be delivered except upon the production and surrender of such order. No delivery will be made on an order written by the purchaser. The superintendent is instructed to recognize orders from the office only.

(10) Keeping:

No charge for keeping will be made to the purchaser for any animal removed on the day of sale. But thereafter a charge of \$2 a day will be made, to be paid upon delivery of the animal. This rule is rendered necessary from the fact that the stable room is needed for other horses to be sold on succeeding days.

(11) Conditions:

Our charge for services in making a sale is ten per cent. upon the purchase price; no charge however to be less than \$30. In case a sale fails through any misrepresentation on the part of the seller, ten per cent. upon the price bid will be charged, together with the expense of keeping. If the animal is passed without a bid, a charge of \$30 will be made to the owner for expenses, of advertising, etc., and the same charge will be made for each animal catalogued and subsequently withdrawn. The full commission of ten per cent. will be charged upon the gross amount of the price obtained in all cases where an animal listed is sold privately prior to the sale. A charge of \$1 per day will be made for the keep of each animal up to and including day of sale.

(12) Telegraph orders:

Orders by mail or telegraph from responsible parties will be carefully observed, and in case of purchase, the animal will be held subject to Boston or New York draft.

5th dam	by BROWN'S BELLFOUNDER. Sire of the grandam of Belmont, sire of 41 in the 2:30 list; and of sons that have sired Belle Vara, 2:08¾; Lobasco, 2:10¾; Cheyenne, 2:14¼; Junemont, 2:14; Pamlico, 2:16¾; Manager (p), 2:09¾; Lockheart, 2:13; Sarcanet, 2:16½, etc.
6th dam	by GREY EAGLE. Sire of the grandams of Piedmont, 2:17¼; Catchfly, 2:18¼; Paul Hacke, 2:24½; Almont Eagle, 2:27, etc.

Description.—Constantine is a blood bay horse, with star and hind ankles white, 15¾ hands high, foaled in 1887, and bred by Mr. Timothy Anglin, Lexington, Ky. In size, color, style, and general conformation he is as near perfection as it is possible for a horse to be, and in the combined points of superior individuality, high breeding, and extreme speed we believe he stands without an equal. The George Wilkes-Mambrino Patchen cross, of which Constantine is the fastest trotting representative by the records, is, without doubt, the most successful and fashionable cross among trotters. It has produced such performers and race-horses as Allerton, 2:09¼; Ralph Wilkes, 2:13½; Guy Wilkes, 2:15¼; Baron Wilkes, 2:18; and many others, while in the stud it has given us such successful sires of early and extreme speed as Alcyone, Alcantara, Guy Wilkes, Simmons, Wilkes Boy, Barron Wilkes, etc. Since these stallions have proved and are proving themselves so successful in the stud, we believe that we are justified in predicting that Constantine, so much more intensely bred in the same bloodlines and with a faster record, will prove even more successful.

He will make the season of 1893 at \$300 the season, money due October 1st, with a free return privilege, should mare not prove in foal, for the mare bred, or any other approved mare in her place, until a live foal is obtained, provided the horse is alive and still owned by us.

2d dam, AYRES MARE by ——
A superior trotting mare, breeder
and pedigree not traced.

Description.—Don Carlos has fully demonstrated his ability to get trotters and race horses. Besides the colts mentioned above a number of others have shown their ability to obtain records of 2:30 or better. Among them is "Richball" whom Mr. John Shepard, of Boston, drove double with Arab 2:15 and could beat 2:30 whenever driven for it. "Wisteria" trotted last year in a race at New London, Conn., in 2:33½ over a poor half mile track. "Red Briar," owned by J. M. Darnaby, Muir, Ky., trotted in 2:42 as a two-year-old, and had she not met with a serious injury, would have beaten 2:30 long ago. "Celia F." trotted in 2:59 to a road cart as a yearling and can beat 2:30 whenever trained, and "Sweetmeat," full sister to Richball, that was knocked off at the Arena Building, last spring, for \$150, immediately went out and won the yearling race at Marshfield, Mass. We might go on and mention others but we think we have said enough to show that Don Carlos' colts trot and trot fast.

5th dam	by SEAGULL.
6th dam, LADY MARVIN	by YOUNG TRAVELLER.

Description.—We are more than satisfied with Ivaneer as a stock horse, and believe had his colts had the opportunities of many horses' get, that as a sire, he would equal any horse of his age. His colts as yearlings have shown us a phenomenal amount of speed and pure trotting action, but they have all been sold as yearlings in this city (Boston) and we have heard of only one that has been trained. He is out of a strictly running bred mare (by Imp. Glenelg) and his owner, Mr. David H. Blanchard, Boston, Mass., writes us that he showed him a full mile last year as a two-year-old in 2:42 $\frac{1}{2}$. Another filly by him out of a common work mare, showed us a 2:30 gait before she was half broken, but contracted a skin disease and had to be turned out. She is now in good condition and we expect to put her in the list this year. In fact we never heard of anyone who regretted breeding to this horse or buying one of his colts.

Description.—Stambula's oldest colts are coming two years old, and were sold last spring in the Arena Building this city. One of his fillies, out of a mare by Pancoast, which was bought by Mr. John O'Conner, of Bromfield St., Boston, and returned to the farm to be kept and trained, trotted a half mile last fall (as a yearling), in 1:19, last quarter in thirty-seven seconds, and eighth in seventeen seconds (a 2:16 gait). Another filly, bought and returned by the same gentleman, showed us quarters in 45 seconds. Those that remained in the east were equally as promising as these two, and if given a chance are sure to develop plenty of speed.

Description.—Here is the prize of the year. It is the first Constantine colt ever bred by Graham & Conley and out of one of the finest mares ever owned at Briar Hill. Race horses of the stripe of this sire are very few, and Del Rose is sister to one of the gamest trotters that ever looked through a bridle. Here is a future champion and is a fair sample of the way Constantine breeds. Don't pass over Regal Son if you want a sure trotter and a future grand young sire. He will be sold with his dam, No. B in this catalogue. He is the image of his sire.

No. B.**DEL ROSE.**

2d dam, KATE by MAMBRINO MESSENGER, 2:18.
Sire of Lewinski, 2:25 $\frac{1}{4}$.

Description.—Del Rose, foaled 1882, is a bay mare, 15 $\frac{1}{2}$ hands high; bred by L. J. Rose, Los Angeles, California. She is a splendid mare individually, of fine size, handsome, and stylish, is by a half-brother to the phenomenal trotting-sire, Sultan, who has seventeen in the list at thirteen years of age. Then her dam is by the greatest brood-mare sire of the greatest brood-mare family, and she has two other Mambrino crosses through both grandams. Del Rose has a fine turn of speed, and her action is magnificent. At Mr. Rose's sale in Chicago, just after her arrival from California, as a two-year-old, she trotted a half in 1:17 $\frac{1}{4}$, the last quarter in 0:37. Her son, by Constantine, shows what kind of colts she produces, and she is booked to Ralph Wilkes, Col. John E. Thayer's grand young horse, and service can be bought by her purchaser if desired. Regal Son will be sold with her.

A pacing mare out of Belle Rolfe is to be trained for George Haddock this year, and can beat 2:20. THE

STALL SULKY WHEEL,

AS USED EXCLUSIVELY IN 1892 BY THE

PRAY PNEUMATIC SULKY CO.,

CAN NOW BE OBTAINED ONLY FROM

**W. W. STALL, 509 TREMONT ST., BOSTON,
OR HIS AUTHORIZED AGENTS.**

The Pray Pneumatic Sulky Co. has passed into the hands of a receiver and is now defunct, and we have no business relations of any nature at present with Mr. Pray.

The Stall Wheel is the only Steel Wheel which has given satisfaction and stood up to its work, and is now used or owned by such well-known parties as James Golden, John Cheney, and John Riley, of Mystic Park; Ed. Bithers, of Allen Stock Farm, behind Kremlin; J. P. B. Wheelding, of Bangor; D. G. Hatfield, of Rahway, N. J., better known as "Old Hat"; John Draper, of Brighton; Andrew Miller, of N. Y., connected with "Life"; William Rogers, Bath, Me.; C. P. Drake, Lewiston, Me.; John A. Sawyer, Boston; Oscar Wolfenden, of Attleboro; J. H. Taylor, Pennacook, N. H.; Sylvester and Gray, St. Johnsbury, Vt.; E. F. Brownell, Rutland, Vt., and many others.

The Stall Sulky Wheel is NOT a bicycle wheel in any part, being made entirely for the purpose for which it is intended, and of a specially heavy line of stock. Stiff spring steel felloes, extra thick spokes, and solid bronze hubs, positively NON-RUSTING, large bearings of finest tool steel, supplied with the celebrated GRANT BALLS, and made positively dirt and water proof by our special appliances, are among the advantages offered by us.

Quality of the goods better than ever. Prices reduced to meet competition. We supply wheels alone, ready for hanging, and you can have the work done by your local smith at a reasonable price.

Wheels complete with bearings and dustproof attachment, furnished with our special heavy double pneumatic tire and patent valve, each pair provided with repairing outfit and elegant and serviceable foot pump, \$60.00 per pair. Quality guaranteed and goods sent C. O. D. with privilege of inspection.

Address all orders and correspondence to me personally.

Wedgewood is, without doubt, destined to prove one of the greatest trotting-sires of his generation, and he is just the right kind of a horse to cross with the Ethan Allen family. Description.—Miss Williams is bay mare, with star and snip, foaled 1885; bred by Mr. Thomas Williams, San Francisco, Cal. Fine size, very elegant conformation, smooth, sound, and good gaited. Broken double.

She has two colts now in the hands of Mr. John Goldsmith, one by Guy Wilkes, 2:15½, and the other by Sidney, 2:19¾; and Mr. Goldsmith writes us that he is just breaking the latter and expects that she will make a trotter from the way she promises now. Miss Williams also has a yearling filly by Constantine, 2:12½, that is an elegant individual and *very* good gaited and promising. There is little doubt but what this mare will be a producing dam very soon. She is in foal to Empire Wilkes, 2:30, which cross should prove a very happy one.

Dam, STARLETTE by STEELE, 1556.

2d dam, NELLIE WILKES by MAMBRINO WILKES, 2:28½.

Sire of Arthur Wilkes, 2:19; Mischief, 2:24½; R. M. Wilkes, 2:25½, etc., by George Wilkes, 5:19, 2:22; dam by Williams' Mambrino.

3d dam, FANNY LYON by GENERAL LYON, 493.
 Sire of Richmond, 2:26, etc. Sire of
 the dams of 3, by Morrill, 850.

4th dam, SHERMAN MORGAN MARE

Description.—Electionher is one of the best bred fillies in New England, and, individually, is as good as her breeding. Fallis is conceded to be one of the very best sons of the great Electioneer, from whatever standpoint considered, and Electionher is a credit to her sire. She has good color, splendid size, and a trotting gait that will land her ahead of the money. She will grow to be a grand brood-mare. No better blood lines can be asked than those contained in this filly? The blood of Electioneer, George Wilkes, Belmont, and American Star are all there, with other rich strains, in hot quantities, and, with an individual built right to propel them, there can be but one result,—a trotter and a race horse.

No. 37. STARLETTE.

Steel-gray mare, foaled 1888; standard and registered, A. T. R.

BY

STEELE, 1556.

Sire of Arago, 2:22½; Puritan, 2:25, etc.; by Startle, 290; sire of Instant, 2:14¼; Majolica, 2:15, etc.; sire of Mambrino Startle, sire of Mambrino Maid, 2:15¼; and grandsire of the world's champion five-year-old race trotter, Belle Vard, 2:08¾.

Dam, NELLIE WILKES by MAMBRINO WILKES, 2:28¾.
 Sire of Arthur Wilkes, 2:19 (the fastest New Hampshire bred trotter); Mischief, 2:24¾; R. M. Wilkes, 2:25¼, etc.; son of George Wilkes, 519, 2:22; dam by Williams' Mambrino.

2d dam, FANNY LYON by GENERAL LYON, 493.
 Sire of Richmond, 2:26, etc.; sire of
 dams of 3; by Morrill, 850.

3d dam, SHERMAN MORGAN MARE.

Description.—Here is a right good young mare, and a sure enough trotter if she gets the chance. The Wilkes-Belmont cross has rarely failed to produce trotters, and this particular nick has been very successful. The New Hampshire bred four-year-old, Bonner Steele, is bred just like Starlette. This colt could trot in 2:30 last fall, and was the winner last winter of a hotly contested seven heat race over the ice at Concord, N. H., against a field of aged horses. He is one of the best gaited and gamest colts ever raised in New England, and Starlette possesses all of his nerve and vim, and, I think, will go as fast. She has never been trained, having produced a foal last year (next number in the Catalogue) and is due to foal this summer to the grand young stallion, Fire King, 17638, a fashionably bred grandson of Lord Russell, brother to Maud S., 2:08¾, and sire of the world's champion race stallion, Kremlin, 2:07¾. Starlette should beat 2:30 the first season she is trained.

JOLLY JINGLES.

Bay colt, foaled May 25, 1892.

Bred by W. H. Jones, Garfield, Vt.

BY

JINGLES, 14872, 2:28 $\frac{3}{4}$.(Son of Baron Wilkes, 2:18; sire of Brava, 2:14 $\frac{1}{2}$; Margrave (2), 2:19 $\frac{1}{4}$, and 16 others; the champion sire of his age; dam Lamberta (a producer) by Daniel Lambert.

Dam by PLOW BOY.

Grandson of Morrill, 850.

Sire of 8 speed getters.

2d dam s. t. b. by WOODBURY MORGAN.

Son of Justin Morgan, founder of the Morgan family.

Description. — Here is a colt that all lovers of Morgan horses will want to take a good look at. The Morgan nerve and style is all here in an individual that will make his mark on the track and road. His dam is a direct descendant of the founder of the great Morgan family, through Old Morrill, grandson of Young Bulrush Morgan, on one side, and Woodbury Morgan, son of Justin Morgan, on the other. She has been one of the toughest and speediest road-mares ever raised in Vermont, and her imprint has been indelibly placed upon this colt. Jingles, the sire of Jolly Jingles (that, by the way, is the oldest of his get) is a son of Baron Wilkes, 2:18, one of the stoutest bred and gamest race horses in the whole Wilkes family. At the age of ten years he is the sire of eighteen standard performers, including the great stake-winning two-year-old Margrave, 2:19 $\frac{1}{4}$, and takes rank as the champion ten-year-old sire. The dam of Baron Wilkes was Belle Patchen, 2:30 $\frac{3}{4}$, by Mambrino Patchen, and his grandam was Sally Chorister (dam of Proteine, 2:18, Belle Brasfield, 2:20, etc.), by Mambrino Chorister, son of Mambrino Chief. This is hot stuff, and is the kind of blood the market is paying for.

Glenbelle is a superb filly individually as well as by breeding; she was broken in her yearling form and showed quarters in 46 seconds; last year she was not used. This winter, however, she has been used to sleigh some, and shows speed enough to warrant the prediction that she will trot in 2:30 this year. She is beautifully gaited and an extra good road mare. Her first and second dams produced Silver King, 2:38½, and Rampart, 2:36, respectively. She is very highly finished, stylish, and handsome, and will show for herself on day of sale.

She is a typical Alcantara in every respect; very speedy and with handling will learn to go fast. She won the first premium last year at the N. E. Fair over 23 competitors. It is needless to eulogize on the merits of her size. Her dam, Kazeta, has produced Silver King, four-year-old race record 2:38½; and her second dam produced Rampart, 2:36. Alcantara fillies are seldom on the market at any price, and this is a rare chance to secure a first-class one; she is large and handsome, with the best of feet and legs, and is warranted sound.

5th dam by AMERICAN STAR.

6th dam by RED BIRD.
Son of Bishop's Hambletonian.**Description.**— This fellow is certainly entitled to show speed if there is any virtue in the law of heredity. A notable peculiarity in the breeding of his sire is that in four generations of his tabulated pedigree not one non-standard animal is found, thus making him nearly a thoroughbred trotter. There are very few indeed in the whole country of horses so purely bred in standard lines as is Nominee. Syphax's dam, Fawn, is three fourths sister to Ella Doe, 2:23½, and is equally speedy, but being less controllable has never taken a record. His second dam, Sticknose, is a producing mare. His fourth dam, Fanny Cook, is the dam of two producing sons. He could show one fourth in forty-five seconds as a three-year-old. He is 15½ hands high, and sound. Here is a bargain. He is of good size, and a grand individual.

She was bred as a three-year-old to Eldorado 10700 by Guy Wilkes. She foaled a fine colt last summer and was ordered bred back to the same horse, but through a misunderstanding the instructions were not carried out. Daughters of Blackwood have produced eighteen trotters in the 2:30 list and his blood is highly prized on the best stock farms in the country. In Sea Breeze this favorite brood-mare cross is backed up by Morgan blood through two of the best families of that strain, and she will prove a valuable addition to the harem of any breeder.

Description.—This grand race horse requires no commendation in New England. He has been owned, trained, and driven by an amateur who weighs two hundred pounds, and who does not claim to be expert. He started this horse eight time and won four first moneys. He never won a heat that he did not win the race, and he forced Huldy B. to her mark of 2:21 $\frac{3}{4}$. Look up the Year Book on this fellow and take into consideration his chances, and you will make up your mind he is a cheap horse at any price. We sold great horses last year but here is the best race horse of the lot.

He is the finest type of the high-bred horse, being trappy-gaited as a pony, with a vigorous constitution, strong nerve, and extreme stylish action; is a perfect type of the well-known Morgan breed of horses. He not only possesses speed, courage, and endurance, and a perfect disposition, but is capable of roading twelve to fifteen miles an hour, and can trot a mile better than three minutes. He was imported for stud service only; is a sure foal getter. His colts are extra fine, and worthy of attention, a few of which are owned by Col. John E. Thayer, who can be referred to. Description.—This brother in blood to Tribune, five-year-old record 2:25 $\frac{1}{4}$, is a dark mahogany bay, star, off hind foot white. Foaled May 11, 1880; stands 16 $\frac{1}{4}$ hands high, weight in stud condition, 1300 lbs. William Tell was winner of the first prize at New England Fair, Worcester, Mass., Sept. 5, 1882; Pittsfield and Adams fairs, 1882; Pittsfield fair, 1883; and winners of first prize at the National Horse Show, New York, Oct. 22, 1883, and awarded first prize at Bay State Fair, Springfield, Mass., Oct., 1888, always getting first prize wherever shown. William Tell is all that could be expected from such magnificent race-horse breeding. He is as fine a looking stallion as can be found, is a natural trotter, starts off on a trot, does not hitch or hobble, does not require boots or weights, is a fast walker, and a great road horse. He will not only sire speed, but size, and looks as well. He has never been a season out of the stud, was handled a very little one fall, and trotted over a half mile track in 2:31 $\frac{1}{4}$. Only two of his colts foaled at the Payne Stock Farm have been handled and but little; they trotted on a half-mile track as two-year-olds in 2:50, one of them winning a race and taking a record in 3:08 $\frac{1}{4}$. She was then put to breeding; the other, a stallion, has been in the stud ever since, and trotted last year a half mile in 1:10 as a five-year-old.

3d dam. by IMP. WELLINGTON.

Description.— Bay colt, two white feet and a small star and strip. He is full of life but with a splendid disposition. He has only been handled by his owner and never for speed, but is fairly broken to harness. His dam was a 16 hand, 1075 pound mare, and showed quarters in 35 seconds. If anyone wants a roadster here he is, and the owner will sell him under contract to castrate him and return him safe to the buyer, if desired.

She is bred for a campaigner for her dam is out of the producer of Deck Wright and others. Despot is a son of Dictator with a trotting and pacing record. Here is a youngster, sired by one of the best sons of Alcantara, with a producing dam, and Jessie Pepper for his second dam, out of a mare by one of Mambrino King's best sons. Wilkes and Mambrino Patchen blood through Mambrino King and Alma Mater, with Edwin Forrest and Morgan crosses, represent a rare prospect in the trotting horse and this colt will prove a prize.

Son of Blackbird, 4217; dam, Lucy Pope by Harris' Morgan.2d dam
Daughter of Henry Black Hawk.**Description.**—Bay mare, 15½ hands, strip in face, one hind and one fore ankle white. Sound, broken, single and double; kind in disposition and safe for a lady to drive. Low-gaited, wears no boots, and gives every promise of speed.

Her blood lines are worthy the most careful attention. The splendid performances of the progeny of her grandsire, Mambrino King, are too well known to require extended mention. Mambrino King, "the handsomest horse in the world," son of Mambrino Patchen, the greatest brood-mare sire, and grandson of Edwin Forrest, grandsire of Nancy Hanks, has no better son than Melbourne King, sire of Camilla. To the blood of his sire he adds the Black Hawk-Morgan strain through Rattler, sire of his dam. Brignoli, sire of his second dam, has seven producing daughters and is a son of old Mambrino Chief; his dam by thoroughbred Woodford, sire of the dam of Woodford Mambrino and Wedgewood. Back of this is the inestimable Pilot, Jr., cross, and the stout four-mile blood at Grey Eagle. With this rich heritage from her sire, Camilla combines the best Morgan and Long Island Black Hawk blood. Melbourne King's get are trotting fast and several will doubtless enter the list this year. Camilla produced last June a promising colt which is also entered in this sale. She certainly will prove very valuable either as a brood-mare or a trotter.

She is a mare of great resolution and an ambitious roadster, but perfectly safe for a woman to drive.
